### Dimensions

### Construction

Length: 566"

Width: 102"

Height: 133"

Capacity: 21,000 gallons (500bbl)

Axle: 22,500 to 25,000 axle, depending on options

Floor: ¼ steel plate, 4" round bottom with integral formed side channels

Walls: ¼ PL solid welded, smooth inside, with formed channel supports outside

Coating: Steel grit blast, 100% solids epoxy chemical resistant interior lining @ 20mil DFT, exterior coated with high solids rust inhibiting polyurethane @ 5 mil DFT. Ask for chemical compatibility.

# Features

Drain/Fill: 4" drain at floor each end with valve, 3" fill elbow at roof, 4" flange with valve on front – flanged on inside, 4" flange with blind cover plate on roof, 2" coupling with plug on roof, 4" coupling with plug on roof, PV vent on roof

Manway: 21" manway on front, side, rear and roof

Access: Front ladder and stairway with 36" grating walkway to roof manway, stationary and fold down handrail system (optional).

# Optional Accessories

Venting: Flange mount Blaylock LL10 P/V vent 16oz pressure, 0.40Z Vac setting

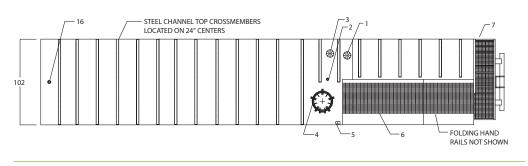

Level Gauge: Ball float level gauge (8" stainless steel ball "Y" support holds ball 1" minimum off floor)

Heat: Four runs of steam coils 20" off ground level, spread of 50.5" apart. 2" SCH 40 piping

### Reference

- Flange mount blaylock LL10 p/v vent 16oz pressure, 0.40z vac setting
- 2. 2" coupling w/plug
- 3. 4" flange w/blind cover
- 4. 21" manyway domed lid and bars
- 5. 3" elbow fill line w/cap
- 6. Safety walk way (36" grating)
- 7. Access stairs
- Level gauge w/8" stainless steel ball "Y" support holds ball 1" minimum off floor
- 9. Front drain w/valve, plug, chain
- 10. 21" manway, domed lid (2)
- 11. 11.00 x 22.5 tubless tire on 10 hole steel wheel
- 12. Folding hand rails
- 4" flange, valve, threaded flange, plug, chain remote operation handle
- 25k axle, automatic slack adjusters, top mounted 30 service chambers, outboard drums, hutch 9700 suspe sion, 3 leaf high arch springs
- 15. DOT tail lights and lower marker lights, no top lights
- 16. 4" coupling w/plug
