

3" AIR OPERATED

Diaphragm Pump

Our air operated diaphragm pumps are cost-effective and simple to use, only requiring an air supply to operate. Our AOD pumps are versatile enough to handle liquids of varying viscosities or corrosive properties, or in various enclosed environments where diesel fumes are a hazard.

Features

- Non-stalling
- Lube-free air valve system
- Automatic priming
- Offers screen mount
- Provides dimensional interchangeability
- Ability to handle infinite variable flows up to 90% solids
- Leak-free design

Specifications

- Suction Size: 1" – 3"
- Discharge Size: 1" – 3"
- Max Feet of Head: 220
- Max Flow Rate (GPM): 240
- Suction Lift: 25'
- Max Solid Size (Diameter): 0.71"
- Max Operating Temperature: 185
- Pump Materials: Aluminum and Stainless Steel
- Engine Fuel: Air-Operated

Applications

- Open pit and trench dewatering
- Pipeline dewatering
- Rim ditches
- Manholes
- Sewer lines
- By-pass applications
- Floodwater control
- Drainage and irrigation
- Dewatering of gravel pits, mines, quarries
